	solution.
<b>Stakeholders</b>	Individuals or groups with a vested interest in the data science model's outcome and its practical application, such as solution owners, marketing, application developers, and IT administration.
<b>Storytelling</b>	Storytelling is the art of conveying your message, or ideas through a narrative structure that engages, entertains, and resonates with the audience.
<b>Test environment</b>	A controlled setting where the data science model is evaluated and refined before full-scale implementation.
